It's populated with my sister's information as I am using her info for testing – if you send her an email, she'd be happy to sell you a house in Moncton! That's my cell phone number, though.

Username can be anything you like. The other fields are self-explanatory.

Your password must be at least 8 characters long, and have at least one number, one uppercase letter, one lowercase letter.

It is important that you populate the **Mobile Number** field if you have a cell phone, as the number will be used to send you a One Time Passcode during the registration process. Please note the format: it begins with +1. If you don't have a cell phone, the One Time Passcode can be sent to an email address.

Once everything is filled in, click **Register** (not Login).
